

How to cancel your DailyPay account

Cancel through the DailyPay app in three easy steps:

1. Go to Settings
2. Click Account Cancellation
3. Cancel My Account

Please note: If you have made earnings transfers ahead of payday, you may request DailyPay account closure at any time, but we'll receive one final paycheck from your Employer to cover the transfers that we sent you early, passing along any remainder pay to your bank account on file.

Once we receive this final paycheck, and the account balance is covered, your account will be fully canceled out. This process can take up to a couple pay periods to ensure full account closure.
